AirAce Helicopter Series

zoopa 150 Turbo ForceBack 2.4 GHz

The AirAce zoopa 150 Turbo ForceBack is extremely tough and has excellent flight characteristics (multiple test winner). Equipped with the latest gyroscope generation (2.0 ForceBack) it is great fun for beginners and professionals: every unexpected rotation of the helicopter is being corrected automatically so the helicopter almost stands in mid-air.

The selectable turbo function makes the helicopter faster and more agile for an action-loaded flight. The fun does not even need to end in the dark – that is when the fun really starts as the model has got an integrated and bright LED light.

Controlling the zoopa 150 Turbo ForceBack is really easy – right from the beginning, almost without any practice.

The 3-channel-technology allows you to ascend, descend or yaw (turn around Z-axis). You can fly the zoopa 150 Turbo ForceBack forwards as well as backwards. The size is perfect for indoor use – at low or high speed, according to your skill level and room size!

Key Features

- » Flight stabilization due to 2.0 ForceBack Gyro technology
- » Turbo function and front LED (selectable)
- » Up to 100 models flyable at the same time
- » Extremely light and resistant
- » Flexible rotor blades
- » Numerous spare parts available
- » State of the art German design of product and gift box
- » Best selling RC helicopter

zoopa 150 Turbo ForceBack 2.4 GHz

Model	Art. No.	EAN
AirAce zoopa 150 Turbo ForceBack 2,4 GHz	AA0170	4260033046307
AirAce zoopa 150 Turbo ForceBack 2,4 GHz replacement helicopter (helicopter only)	AA0172	4260033046321

Content of the Box (AA0170)

- » 3-channel mini helicopter with gyro technology
- » 2.4 GHz controller incl. charging unit
- » Manual

Available Accessories (not included):

- » USB charging cable
- » Power adaptor (110 – 240 V -> 5 V, only in combination with USB charging cable)

Technical Data

Dimensions:	19 x 3.8 x 10 cm
Weight:	40 g
Colours:	black/orange
Material:	gear box, cockpit, rotor blades, tail unit: plastics body: aluminium
Rotor diameter:	19.7 cm
Tail rotor diameter:	3.4 cm
Gyro system:	integrated
Receiver:	built-in
Type RC controller:	zoopa 150 Turbo ForceBack 2.4 GHz
Channels:	3 + 2 (Light and Turbo connectable)
Trim function:	Yes
Operational area:	Indoor
Recommended age:	14 +
Level of difficulty:	Rookie
